Dear Tim, Laurel and Bryan,

On behalf of the faculty, staff, and patients in the Upper Aerodigestive Program at the Johns Hopkins Kimmel Cancer Center, thank you for your continued support of our efforts to make consistent advancements against head and neck cancers. I was so disappointed to miss the tournament last year, but I now have my calendar blocked off on September 16<sup>th</sup> for the 10<sup>th</sup> Annual JBL Memorial Golf Tournament!

Your support plays a critical role in promoting the research projects and careers of our oncology faculty to ensure the development of the next cutting-edge therapies and treatment approaches of tomorrow. As I continue my work at Hopkins, I am proud to mentor our young faculty members as they see patients in our multidisciplinary head and neck clinic and become productive clinical researchers. Being heavily involved in our training program as well as keeping abreast of laboratory efforts is how I personally ensure that life-saving research becomes a reality for patients.

Once again, please accept my sincerest gratitude for your continued enthusiasm year after year. It is a privilege to be a part of the Foundation. I'm still hoping to get to Florida one of these days! See you on September 16<sup>th</sup>, 2016.

Sincerely,

Arlene A. Forastiere, M.D.
